Safe Colours

Martin Trapp

February 16, 2023

1 Colours

Colours are available through:
`solin-colour1, ..., solin-colour7`,
`light-colour1, ..., light-colour7`,
`wong-colour1, ..., wong-colour7`, and
`tol-colour1, ..., tol-colour7`.

In addition, one can access the colours using `colour1, ..., colour7` which defaults to the Solin colour palette. This can be changed by changing the argument of the `\usepackage[arg]{safecolours}` to `light`, `wong` or `tol`.

Solin

1	2	3	4	5	6	7

Light

1	2	3	4	5	6	7

Wong

1	2	3	4	5	6	7

Tol

1	2	3	4	5	6	7
